

Four Steps To A Healthier & Greener Lawn

2022 EDITION

1

Step 1:

March–April

Your lawn is just coming out of its winter dormancy, so you'll want to start the season right with great lawn food with added crabgrass prevention.

Crabgrass Preventer *plus* Lawn Food | 15-0-0 w/ Dimension®

- contains Dimension® pre-emerge herbicide
- one application gives great control of the ugly crabgrass you *don't* want
- promotes deep green growth
- 50 lb. bag treats 12,500 sq. ft.

2

Step 2:

May

OPTION #1

Weed & Feed | 20-0-5 w/ Trimec®

- dry granular product
- 20-0-5 fertilizer with a broadleaf post-emerge herbicide
- one application kills dandelions and many other broadleaf weeds
- feeds lawn with fast-acting and long-lasting nutrients
- contains 25% slow release Nitrogen
- 50 lb. bag treats 10,000 sq. ft.

OPTION #2

Bounty Fertilizer | 24-3-3

- dry granular product
- feeds lawn with fast-acting & long-lasting nutrients
- 50 lb. bag treats 12,500 sq. ft.

Liquid Weed Killer | Triplet®

- one application kills unwanted weeds
- each gallon jug treats 2 acres

3

Step 3:

June

While continuing to nourish your lawn, Step Three will help to retain that rich green color we all want.

Bounty Fertilizer | 24-3-3

- dry granular product
- 25% slow release Nitrogen
- contains 2.5% Iron
- 50 lb. bag treats 12,500 sq. ft.

4

Step 4:

September–October

Consider this your lawn's midnight snack. Our 15-30-15 blends help prepare your lawn for its long winter dormancy.

Bounty Fertilizer | 15-30-15

- formulated for lawns in Central Ohio
- builds deep green fall lawn
- promotes healthy roots for winter
- 50 lb. bag treats 10,000 sq. ft.

LATE SUMMER
ADDED PROTECTION:

Criterion 0.5G® Granular Insecticide

Each 30# bag treats 1/2
acre for season-long
grub control.
